

# Janak Bhanushali

Navi Mumbai, Maharashtra, India 400709 | +91 9870734332 | [janakbhadra@gmail.com](mailto:janakbhadra@gmail.com) | [janakbhadra.github.io](https://janakbhadra.github.io)

Cisco Certified CCNA & Checkpoint Certified Security Administrator

## SKILLS

- **Firewall Expertise:** Proficient in configuring and managing firewalls such as Palo Alto, FortiGate, Cisco ASA, FTD, and Checkpoint, ensuring robust network security.
- **WAF and Load Balancer Proficiency:** Skilled in implementing and optimizing WAF solutions, Load Balancing, Content Switching on Citrix NetScaler and F5, to enhance application performance and availability.
- **Routing and Switching Protocols:** Extensive knowledge of IP SLA, HSRP, BGP, OSPF, STP, MPLS, VRF, IPSEC VPN, ISIS, EIGRP, and FlexConnect for seamless Wired and wireless network connectivity with efficient data routing.
- **Diverse Network Devices:** Experienced in working with a variety of network devices, including routers and switches from Cisco, Huawei, Alcatel, and Cisco Meraki, ensuring reliable network infrastructure.
- **Cloud Networking:** Proficient in Microsoft Azure, adept at designing and implementing cloud networking solutions, optimizing performance, and ensuring secure connectivity in the cloud environment.

## PROFESSIONAL EXPERIENCE

- |   |   |                            |
|---|---|----------------------------|
| <b>Coforge Ltd   Mumbai, India</b>  | <b><u>Network Team Lead (Analyst)</u></b> | <b>Apr 2022 - Present</b>  |
| <ul style="list-style-type: none"><li>• Manage network infrastructure, including WAN, LAN, and CAN, for three clients.</li><li>• Manage continuous operations, Disaster Recovery exercises, and initiatives for the client's network infrastructure, working with OEMs to meet equipment needs for routers, switches, access points, and firewalls.</li><li>• Create proactive strategies and long-term goals to strengthen network infrastructure.</li><li>• Keep up-to-date documentation on network infrastructure for clients to evaluate, including diagrams and SOPs.</li><li>• Create firewall rules, do wireless connectivity troubleshooting, and alter switching and routing configuration.</li></ul> |   |                            |
| <b>Reliance JIO   Mumbai, India</b>   | <b><u>Deputy Manager</u></b>              | <b>Jul 2021 – Apr 2022</b> |
| <ul style="list-style-type: none"><li>• Handle application team tickets for port opening, NAT Rule on Cisco ASA Firewall and Cisco Firepower.</li><li>• Address requests to create Load Balancer VIP on Citrix NetScaler or F5, aligned with application requirements.</li><li>• Establish rules and enable signatures on the web application firewall for internet-facing applications.</li><li>• Set up Layer 4 Load Balancers or Layer 7 (Application Gateway) in Azure cloud, based on application needs.</li><li>• Create rules in the Network Security group and routes in route table for Azure servers.</li></ul>   |   |                            |
| <b>Capgemini   Mumbai, India</b>  | <b><u>Senior Consultant</u></b>           | <b>Dec 2018 – Jul 2021</b> |
| <ul style="list-style-type: none"><li>• Troubleshoot and manage network devices and firewalls, configuring port openings on FortiGate and Palo Alto firewalls.</li><li>• Contribute to Data Center migration projects, including firewall rule audits and F5 Load Balancer deployment.</li><li>• Implement routing and switching changes based on incident troubleshooting.</li><li>• Design end-to-end solutions for upgrading access points, wireless controllers, routers, and switches.</li><li>• Liaise with developers to prepare automation scripts for upgrade processes of Network Devices.</li></ul>  |   |                            |
| <b>NSC Global   Mumbai, India</b>   | <b><u>Network Engineer</u></b>            | <b>Nov 2017 - Dec 2018</b> |
| <ul style="list-style-type: none"><li>• Monitor and manage network devices using SolarWinds, troubleshooting a large-scale network infrastructure.</li><li>• Configure firewall rules on Checkpoint firewalls and Facilitate SSL certificate renewal for VIPs hosted on F5 load balancers.</li><li>• Conduct switching changes and configurations on Brocade switches.</li><li>• Generate Certificate Signing Requests (CSRs) on F5 and collaborate with clients for SSL renewal.</li><li>• Compile monthly reports on network device availability using monitoring tools.</li></ul>  |   |                            |
| <b>Reliance JIO   Mumbai, India</b>   | <b><u>Senior Executive</u></b>            | <b>Jul 2017 – Nov 2017</b> |
| <ul style="list-style-type: none"><li>• Create Standard Operating Procedures (SOPs) for non-technical graduates managing enterprise customers.</li><li>• Develop SOPs for handling customer connectivity failures and gather requirements for troubleshooting tools.</li></ul>  |   |                            |
| <b>Ericsson   Mumbai, India</b>   | <b><u>Network Engineer</u></b>            | <b>Nov 2015 - Jul 2017</b> |
| <ul style="list-style-type: none"><li>• Monitor network performance and status, notify on-site engineers, and create change requests for upgrades and licensing.</li><li>• Execute routing and switching changes in response to fault tickets for enterprise customers.</li><li>• As a member of the Core Network team, my focus was on maintaining the stability, efficiency, and reliability of the Metropolitan Ethernet network, ensuring uninterrupted services for customers in North India.</li></ul>  |   |                            |
| <b>Sutherland Global Services   Mumbai, India</b>   | <b><u>Consultant</u></b>                  | <b>Sep 2014 – Nov 2015</b> |
| <ul style="list-style-type: none"><li>• Verify fiber service availability and validate customer order status.</li><li>• Make changes to customer profiles in CRM and provide training to new joiners.</li></ul>   |   |                            |

## EDUCATION

University of Mumbai | Bachelor of Engineering in Electronics & Telecommunications

May 2014

Course work: Cloud Networking, Data Center Networking and Network Asset Management.
